

# MOEDER AARDE

3 t/m 25 augustus 2024

Moeder Aarde is veel.

Bulten zand, mollen, koeienvlaai, machines, maar ook overstroming, aardverschuiving, aarde in nood, recycling materialen.

Beschutting, schaduw, loopgraven, en vanuit de ruimte de aarde in nood, tekeningen in de Andes, kleurveranderingen bij opgravingen, sporen van de prehistorie.

Vruchtbaarheid en uitputting, maar ook overweldigende schoonheid!

Moeder Aarde het begin en het einde en alles er tussen in.
